RetireReadyTN recognized for efforts to increase retirement readiness for active members

The State's retirement program, RetireReadyTN, received a 2022 Excellence and Innovation Award from *Pensions & Investments* for its initiative to help active members maximize their retirement readiness.

Combining the strengths of TCRS, the state's deferred compensation 401(k) and 457(b) plans, and retirement readiness education, RetireReadyTN strives to help active members take actionable steps toward preparing for the future.

RetireReadyTN was selected by *Pensions & Investments* for implementing a strategic plan to increase the number of public employees and teachers meeting one-on-one with a RetireReadyTN Plan Advisor and conducting comprehensive retirement readiness reviews. The campaign targets members who may not be saving enough in their 401(k) or 457(b) accounts to replace income when they retire, or who are invested too conservatively or too aggressively based on the number of years until retirement.

Pensions & Investments recognized eight plans across the nation that are committed to improving retirement outcomes for their participants.
